Our vision

To assume leadership among business associations through dedicating the expertise of our association's members, in developing an investment climate in away that enhances a supporting business environment for the national economy in Jordan.

Our mission

To promote the suitable environment that empowers the private sector to effectively play its leading role in enhancing the economic and social responsibilities stimulating investments and serving our national economy in Jordan.

The Jordanian Businessmen Association

The Jordanian Businessmen Association (JBA) was established in 1985 as an independent, non-profit organization with its headquartering in Amman, Jordan. The main objective of the Association is to create and maintain a business climate that will enable the private sector to accomplish its role in the sustainable economic and business development in Jordan.

The (JBA) embraces a wide spectrum of well-reputed entrepreneurs. It comprises about 360 members of senior businessmen in Jordan active in the different Jordanian economic sectors including industry, commerce, agriculture, banking, insurance, construction, tourism, transport and others.

They represent the core of the private sector and this qualifies the Association to act as the single unified spokesman for Jordanian businessmen in communications and meetings with similar foreign businessmen associations.

The private sector, being committed to free enterprise and entrepreneurship, and working in collaboration with the Public Sector, believes in partnership and cooperation with the Arab and friendly countries.

In this context, joint business councils have been set up so far with similar associations in 40 countries.

The (JBA) runs dialogues with ministries concerned with economic affairs in Jordan to boost the role of the private sector in the economic development in the Kingdom. It receives missions of the foreign business communities which visit Jordan, and arranges the meetings between such missions and their Jordanian counterparts.
